# Cameras

Cameras are in manual mode because of difficult lighting situation.

**Left Ring** Focus - control sharpness of the image.

**Middle Ring** Zoom - vary the focal length.

**Right Ring** Iris - don't touch.

# Tripod Handle Controls

Beware: various models in use.

**Zoom Control** lever above red ring

**Red Button** Start/stop recording,  
don't touch

**Other Buttons** markings on the handle

# Tripod

- Variable brakes - can be adjusted to your needs.
- Tilt axis should be balanced, so that the camera doesn't tilt up or down on its own.
- Pan axis is needed all of the time. Adjust it well so you can do smooth pans all over the stage.
- Tell the A/V-Technician in case something is wrong or misplaced.
